I decided to make a game, Body Block. The objective is to grow big enough to defeat the other 2 enemies inside of the maze, similar to Pac-Man but each orb you collect makes you grow in size. Be careful not to touch any part of your body though, or you die like in Snake. If you touch the walls of the maze or an enemy before you are bigger than them, you also die.

The game is played by using the arrow keys. Up key for up, down for down, etc. Collect 3-5 orbs to gain 1 size in length. Enemies will have a random size at the beginning of the game to randomize difficulty, but can also collect orbs. You can see their size as numerically shown on the side of the screen along with your size, to reduce confusion. You win by defeating the other two opponents in the maze.
